EXPERIENCES

02

2022.01 - Present

Freelance Developer

Developing modern software solutions: from web platforms (Next.js, React, Tailwind) to backend infrastructures. Specialized in autonomous AI agents, complex automations, and scalable architectures.

2026.02

ProjectBEA (AI Streamer Engine)

A modular AI Streamer Agent engine (Python, FastAPI, React).

- RAG (Retrieval-Augmented Generation) memory integration.
- Skill development (e.g., LLM-driven Minecraft agent, Discord voice integration).
- Support for multiple modules (Gemini, OpenAI, local models).

2025.10

Human-Like Instagram AI Agent

Instagram DM automation (Python & Google GenAI): Developed a multithreaded agent with human simulation logic (dynamic delays, batching, text splitting).

EDUCATION

03

2025.09 - Present

UNIMORE · Computer Science Student (Bachelor's Degree)

First-year student. Focus on algorithms, software architecture, full-stack development, AI, and Machine Learning.

2020.09 - 2025.06

Human Sciences High School

SKILLS

04

Frontend

React, Next.js,
TypeScript,
Tailwind

Backend

Python,
PostgreSQL,
REST APIs

AI & ML

API GenAI
(Google, OpenAI,
Groq, xAI), RAG,
Finetuning

DevOps

Docker, Linux,
Cloudflare,
Nginx, SEO,
VPS setup
